

# THE NOWU MISSION

Our mission is to be different than every other Union in Canada. To be more affordable and transparent to it's members. To act as a defensive shield to our members facing the many economic, social, and automated battles in our future.

## CORE VALUES:

Freedom  
Transparency  
Democracy  
Affordability  
Independence

## OUR VISION:

We believe that the Canadian Labour movement can repair itself over the coming years, and restore its grass roots efforts in improving the lives of their members.

That once again members can be proud to hold Union membership cards, and become excited to participate in necessary change.
